WHITE PAPER

May 2024

ROADMAP

Our road never ends, and we love it.

We started as a small group that could not believe the amount of money going into metaverse projects and after years, delivering very little.

We knew we could do better, so our journey began, and we have succeeded.

From IP/Patents, to building the largest metaverse ever, to building the first multiverse and gaining approval from all major platforms before anyone else.

Ownership of a CAYC NFT implicitly grants you access to our community outreach and marketing activities.

It is not, in any form, a platform for revenue generation, earning potential or profit expectation. It is not a security; you are purchasing a perpetual membership access for the life of your ownership of the CAYC NFT.

CAYC business and its affiliates are committed to providing a monthly budget to fund the CAYC NFT related community activities, this budget is utilized to cover:

- Events such as community meetups, yacht parties, cruises, concerts and sporting events.
- Outreach programs covering homelessness, mental health, addiction, feeding the hungry, support of disadvantaged children and job placement/education.
- Community marketing through social media and other forms.

Multiple levels of CAYC NFT collections are available, representing increased membership access.

Each level is granted access to part of the community allocated marketing budget in return for providing marketing activities.

Through a system known as CAYC IMS, owners of CAYC NFT's can access marketing funds to support activities through recording demonstratable activities within the platform.

Any specific Country, State, City tax implication are the sole responsibility of the CAYC NFT owner to identify and pay.

THE NFT COLLECTIONS

- Insider Access
- Owner Privileges
- Opportunities

Each CAYC NFT is a unique digital asset that is not only a special piece of art but more importantly represents your rights to unparalleled utility.

Each NFT tier grants access to an array of exclusive content and experiences.

CAYC NFT's are more than a collection; it's a community hub for interaction, collaboration, and mutual support. A community focused on helping others through community reward pools, unique events and support groups.

Owning a CAYC NFT is not just a statement of ownership; it's a gateway to many unique rewards and impactful contributions. Beyond individual gains, your CAYC NFT ownership has a broader societal impact. Ten percent of all profits generated is earmarked for community betterment initiatives. This includes providing aid to the disadvantaged, such as feeding the hungry and supporting needy children, enabling veterans and support homelessness and addiction making each NFT a catalyst for positive change.

THE CAYC COIN

CAYC

To completely revolutionize the gaming industry, we will be implementing our Coin Lottery. This coin allocation/staking will give us the opportunity to burn 'n' number of coins per draw.

The lottery's prize pool is financed by profits, which gives us the chance to market a bigger prize pool as we expand.

An in brand burn equal to 20% of purchases will occur monthly and enable a deflationary effect.

ECOSYSTEM

This ecosystem will reduce supply while avoiding large flows of coins back into the market as user will have a chance to receive a larger value through the lottery than selling the coins. Which would in theory impact the coins value in a positive manor as users are more inclined to purchase and hold the coin.

MINTING

For security purposes, the full 500 million CAYC Coins will be minted at once. All non-distributed coins, including those allocated for release on a vesting schedule, will be maintained in a secure and centralized reserve wallet account.

THIRD PARTY AUDIT

The CAYC Coin will be audited by a major party system once uploaded to the blockchain.

CLASSIFICATION

The CAYC Coin is expected to be classified upon the findings of an external legal review, with a likely outcome of it falling under the Utility category.

Unreal Kingdoms economic system exists to allow participants to use digital currencies (CAYC) to buy, sell, and trade virtual goods and services. Within Unreal Kingdoms players can earn CAYC through various activities, such as completing quests, selling virtual items, or providing services to other players. This virtual currency can then be used to purchase virtual assets, such as land, buildings, or digital goods like clothing, weapons, or vehicles. CAYC can even be utilized within the real-world with our debit cards.

DEFLATIONARY COIN

The CAYC Coin (CC) is designed to be the input/output cryptocurrency of the Unreal Kingdoms multiverse metaverse

- ❑ At launch the value of 1 CAYC = 1 USD
- ❑ The launch conversion rate to Unreal Kingdoms in-game credits is 1:1000
- ❑ An in-game conversion burn will occur monthly, eventually going from 1:1000 to 1:1
- ❑ The burn is based on 20% of all in-game marketplace spend

- Unreal Kingdoms supports them all

A futuristic, sci-fi marketplace scene. In the foreground, a large, dark, metallic robot with a glowing blue visor and a long, dark mane-like structure on its head stands on a metallic walkway. The robot is holding a glowing blue rectangular device. In the background, two other characters in futuristic suits are walking away on the same walkway. To the right, there is a display of yellow, round objects, possibly food or goods. The environment is filled with complex machinery, pipes, and glowing blue lights, creating a high-tech, industrial atmosphere.

MARKETPLACE

Enabling the multiverse metaverse is a marketplace where buying and selling occurs

Items for sale include

- Land to build on
- Shopping malls
- Characters
- Companions
- and much much more

Within each metaverse is an in-game inventory where objects can be collected and traded specific to that metaverse.

IN-GAME CURRENCY

OUR FOCUSED USE CASES

Gamification / Gaming / Sports

Unreal Kingdoms believes that gamification is the foundation for our Multiverse Metaverse. By securing several global patents including ticket issuance and streaming services we will be the foremost authority and provide interoperability to other metaverses.

Financial Freedom

Financial freedom is under your own control within Unreal Kingdoms. You can operate play to earn, buy, and trade land and assets with in-game credits. The economy is growing and your ability to 'level-up' can be achieved with the minimum requirement being time. The more your build, engage, learn – the higher you level, the greater potential to earn.

Innovation Studios

Innovation is the heart of Unreal Kingdoms. So we embrace it, we invite the creators and innovators to develop inside Unreal Kingdoms – ideate, design, build, test and operate within your owned land throughout our Kingdoms.

Health & Wellness

From day 1 Unreal Kingdoms has embedded Health and Wellness into our sustainable Kingdoms. With various global partnerships developing new treatments and cures using the Metaverse, Unreal Kingdoms will be at the forefront of advancing human and animal kind health. Our Kingdoms provide for research and industry professionals to go beyond what is achievable in the real world and develop their digital twins.

Commerce

Unreal Kingdoms offers you additional avenues to engage in commerce with your customers. If you are seeking the next frontier for delivering services, then Unreal Kingdoms is the perfect choice. Here, you can create entirely new economies and offer unique products. With the most fitting futuristic environments, Unreal Kingdoms enables you to open entire malls and stores, provide both open and exclusive access, and much more.

Knowledge & Education

Unreal Kingdoms has and will continue to partner with education establishments around the world to provide a experience to gain knowledge through online classes, vocational training and on the job learning. To encourage continual learning for all, courses will offer accreditation and full institutional degree level programs. Players will earn credits that can be utilized within the various Kingdoms or traded for additional knowledge, tools and powers.

OUR USE CASES (CONT.)

Creativity

Unreal Kingdoms provides individuals and groups abilities to generate and express new and original ideas, concepts, and content within virtual environments. In the metaverse, creativity takes many forms, including the design of virtual environments, the creation of digital objects and assets, the development of virtual characters and avatars, the production of multimedia content such as music and video, and the use of innovative technologies to create new forms of expression. Unreal Kingdoms creativity also brings important implications for the future of work and the economy, as virtual environments become increasingly important for a wide range of industries, from entertainment and gaming to education and healthcare.

Art Studio

Unreal Kingdoms is a virtual world that encompasses various environments and online communities, allowing players to interact with each other through avatars and engage in a range of activities such as gaming, socializing, shopping, and more. Design and art play an important role in shaping the user experience and the overall aesthetic of Unreal Kingdoms. Our immersive and realistic environments allows players to explore and interact with the digital world. This includes designing virtual spaces, objects, and avatars that are visually appealing and easy to navigate. Artistic creations such as virtual sculptures, paintings, and installations can be used to decorate your virtual spaces, creating a unique and memorable atmosphere. Artists can use Unreal Kingdoms as a platform to showcase their work to a global audience, reaching a wider audience than traditional galleries or exhibitions.

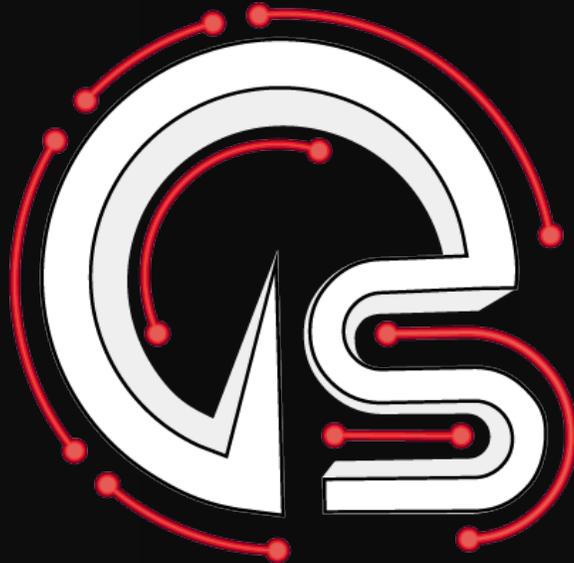

Community Centers

Community and Unreal Kingdoms are synonymous. Community centers within our metaverse serve as virtual spaces where people from all over the world come together and engage in social, cultural, and educational activities. These centers provide a range of services, including virtual meeting rooms, event spaces, classrooms, and more. People from different parts of the world can come together to share their cultural traditions, music, art and enjoy playing games and other forms of entertainment together.

GAMBLESTAKES

GAMBLESTAKES

OUR MISSION:

GambleStakes strives to become the world's largest provider of quality of iGaming entertainment.

The company aims to do so by providing a one-of-a-kind one-stop experience for all of your playing needs. GambleStakes' strengths lie in its experience, the best customer service, and superlative service quality.

And its success lies in your satisfaction!

BECOMING GAMBLESTAKES

GambleStakes was founded in 2021 as Bitcoza.

In 2022, Bitcoza was bought by world-famous industry leaders. CAYC CEO, Dru Mundorff, known as CodeCompiler, purchased Bitcoza with the aim of creating the ultimate one-stop casino with the best odds possible for players by providing the industry lowest house edge of 3.5%. It offers its players a seamless and luxurious experience that is second to none.

Being an ambitious brand, GambleStakes has been expanding into new markets bringing its top-quality services to more and more players.

That being said, expansion never comes at the expense of quality for GambleStakes.

This helps ensure that all users get the luxurious online casino experience that players demand, regardless of which part of the world they are from.
